

LITTLE ST. GERMAIN LAKE DISTRICT INFORMATIONAL MEETINGS REMINDER

Two public informational meetings have been scheduled by the board of commissioners to discuss
Barr Engineering's study findings regarding use of alum as a means of reducing algal blooms in Little Saint Germain Lake.

(See Barr's report at
http://www.littlesaint.org/lake_studies/barr_alum_sediment_study.pdf)

**Meeting #1: Saturday, May 24, 9:00a.m.
St. Germain Community Center (Town Board meeting room)**

**Meeting #2: Saturday, July 5, 9:00a.m.
St. Germain Community Center (Town Board meeting room)**

The results of a May 9, 2008 teleconference between the WDNR, Barr Engineering, USGS and the lake district regarding Barr Engineering's study findings and an adjusted time-line for the lake district to possibly move forward with an alum treatment will be discussed in detail. The meeting will start promptly at 9:00 and should conclude by 10:30 or earlier.

Ted Ritter

President, Board of Commissioners
Little St. Germain Lake District
